

Kunal Varshney

Web Designer • Gurugram • Remote

I design and build websites from Gurugram, remote. Since January 2025 I have run the online side of a cast-aluminium lighting manufacturer — a 200+ model catalogue, trade pricing, orders in eight currencies — alongside freelance work, including live hire portfolios in real job applications.

Four years in technical support before that. I use Claude and Cursor for speed; the design, copy, QA and launch stay mine.

Experience

Where I've worked

Jan 2025 – Present

Freelance Web Designer

Independent — Padma Enterprises (Padma Lights) and freelance clients

- Built an internal ERP for the family manufacturing business: proforma invoicing, customer ledgers with per-party outstanding balances, and an order lifecycle where hold and cancel reverse the matching ledger entry. Python back end, React and TypeScript front end.
- Design and build marketing sites and landing pages for small businesses.
- Lead marketing, website, and the full online presence for Padma Lights — a 200+ model cast-aluminium lighting catalogue, trade pricing, region-aware GST, a Google Merchant Center feed, and international orders in 8 currencies.
- Live hire portfolios for Shweta Tiwari, Antriksh Upadhyay, and Anamika Rajput. Clickable demos (JAI Home Care, Ace Factor, and others) are labelled as demos on the work page.
- Other builds: a location browser with a MapLibre map of India and live weather (Daftar), a themeable React and TypeScript storefront template (BKC), and a civic reporting progressive web app (THOOK).
- Ship behind Playwright end-to-end test suites and service-worker caching, so a change is verified before it is live.
- Claude and Cursor for layout and iteration; I review code, copy, mobile behaviour, and the launch checklist.
- Scope, price, and timeline agreed in writing; support after go-live.

Aug 2024 – Dec 2024

Technical Support Advisor

Teleperformance

- Diagnosed and resolved technical issues, minimising downtime while maintaining service quality.
- Worked in a fast-paced environment, adapting to changing tools and staying current with PBX trends.
- Used remote troubleshooting tools and ticketing systems to manage and resolve support queries.

Oct 2023 – Jan 2024

Customer Support Executive

Webhelp Pvt. Ltd.

- Delivered customer service over chat and email — product questions, complaints, and troubleshooting.
- Collaborated cross-functionally to escalate and resolve complex cases end to end.
- Maintained detailed CRM records of customer interactions and transactions.

Oct 2021 – Apr 2023

Content Moderator

Concentrix Daksh Pvt. Ltd.

- Verified content for Google platforms, including YouTube Kids, using the Yurt review tool.
- Handled team reporting and coordinated time-management tasks with the team leader.
- Created transcripts for moderation videos and prepared them for production.

Feb 2021 – Jun 2021

Technical Support Trainee

Flex Pvt. Ltd.

- Supported Oracle WebLogic 11g and Jenkins jobs alongside dashboard and mail monitoring.
- Analysed system logs to identify issues and troubleshoot for quick resolution.
- Monitored internal tickets and produced health-check and filtering reports.

Jun 2019 – Aug 2019

Early Internships

Parag Dairy · UP Rajya Vidyut Utpadan Nigam Ltd.

- Operated milk-filtering machinery for quality checks and handled delivery records at Parag Dairy.
- Prepared project progress reports at Harduaganj Thermal Power Station and coordinated with the coal department on crushing and conveyor transfer.

Skills

Toolkit

SUPPORT	PBX · Remote troubleshooting · Ticketing · CRM · Oracle WebLogic · Jenkins · Dashboard monitoring · Log analysis
WEB & MARKETING	HTML & CSS · Responsive layout · Landing pages · SEO basics · JavaScript · Photoshop · Digital marketing · Meta ads · UI/UX design · AI-assisted development (Claude, Cursor)
SOFTWARE	AutoCAD · MS Excel · MS Word · MS Office
DATA	Excel data analysis · Digital marketing fundamentals
SOFT SKILLS	Communication · Creative thinking · Time management · Decision-making · Presentation

Credentials

Education & certs

EDUCATION B.Tech in Computer Science Aligarh College of Engineering & Technology 2020	GOOGLE / COURSERA Google IT Support Professional	COURSERA Introduction to Data Analysis Using Microsoft Excel

Work

Projects

Padma Lights — live Marketing and catalogue for padmalights.com — 200+ products, export orders. I run the online side.

Hire portfolios — live

Personal hire sites for Shweta Tiwari, Antriksh Upadhyay, and Anamika Rajput.

Bhagwan — live

First-person cosmology site — 38 voices, 56 kathas, Hindi / English / Sanskrit. lilkunal.github.io/bhagwan.

Demos — 2025

Clickable builds for JAI Home Care, Ace Factor Fitness, Atul Shiv Shakti, BKC, and Daftar — labelled as demos on the work page. This portfolio is the design and front-end case.

Padma ERP

Internal order desk for the family manufacturing business: proforma invoicing, customer ledgers with per-party outstanding balances, and an order lifecycle where hold and cancel reverse the matching ledger entry.

Python, TypeScript/React, TypeScript · Aug 2026 - present

Thorn — A Programming Language

An independent project to design a high-level, easy-to-use programming language — planning and executing the concepts of compiler design from the ground up.

ACHIEVEMENTS & ACTIVITIES

- 1st Prize, Computer Science Quiz Competition — Vivekananda College of Technology & Management (25 participants)
- 2nd Prize, Debate Competition — Varshney College (50 participants)
- One-day workshop on Networking, organised by Aptron
- One-day workshop on Blockchain and Machine Learning, organised by Training Basket
- Participant, Endeavour 2018 — KIET College, Ghaziabad
- Participant, CAD Desk Techno Quiz
